

Accessories

For simpler, safer handling

Aspen 5L filler

Fuel-resistant and flexible filler pipe which fits Aspen 5L containers. Equipped with a lid to shield against dirt and dust.

Autofiller for 5L container

Fill up your machines simply and safely with no spills using the Autofiller. It stops automatically once the petrol tank is full and fits all tank lids and quick connectors. Autofiller has a unique vapour return system due to the seal from its rubber collar, which also prevents spills. It has a special air/petrol separator which makes filling quick and controlled. It is maintenance-free and revolves through 360 degrees. Autofiller fits 5L Aspen containers

Pouring tap for 25L container

Fuel resistant pouring tap in “aeroflow” design for optimum performance. Suitable for 20L and 25L containers. Equipped with lid to avoid spillage and evaporation. Also excellent for oils and solvents, as well as for petrol.

Key for 25L container

Key for simpler, smoother opening. Suitable for 20L and 25L containers. Manufactured from impact-resistant plastic.

Aspen 25L filler

Fuel-resistant and flexible filler pipe which fits Aspen 20L and 25L containers. Equipped with a lid to shield against dirt and dust, and with venting to ensure a more even flow when pouring fuel. Excellent for oils and solvents as well as for petrol.

Pump for 200L drum

Fuel-resistant plastic pump, which tolerates petrol, oils and weak acids. Pumps according to the syphon principle and has an on/off function for simple flow shut-off. Hose included. Capacity: 26L/min.
